YİĞİT TUNCAY

Frontend Developler

ABOUT ME

Hello, I'm Yiğit Tuncay, a 21-year-old Frontend Developer with a strong passion for web development since 2018. I specialize in crafting modern, high-performance, and user-friendly interfaces using React, Vite, SCSS, and Tailwind CSS.

I have a solid understanding of Object-Oriented Programming (OOP) principles such as inheritance, encapsulation, polymorphism, and abstraction, and I apply them in JavaScript to write clean, modular, and reusable code. Additionally, I focus on troubleshooting, debugging, and optimizing performance to enhance user experiences.

With strong problem-solving skills, a proactive learning attitude, and the ability to adapt to fast-paced environments, I thrive in collaborative teams and contribute to building innovative solutions.

🎓 EDUCATİON

ESKİŞEHİR TÜRK TELEKOM VOCATİONAL AND TECHNİCAL ANATOLİAN HİGH SCHOOL

Web design and programming
2017- 2021
